## packing & delivery fees...

If you are making your purchase with the online shopping cart or with a two bit punk 'smart' order form, then the delivery fee will be automatically calculated for you.

If you are filling out one of our 'dumb' order forms, you will need to refer to this chart in order to calculate the correct delivery fee based on your subtotal amount (that is the total goods dollar value).

Any relevant import duties imposed by your country, state, or province are your responsibility.

## payment methods...

### cheque/money order...

Cheques are only accepted for Australian domestic sales. International orders may be paid by money order.

Please make all payments to 'two bit punk'. Bare in mind that we can not process your order until receipt of your payment has been confirmed, this means that cheque paid orders may take a week longer than other payment methods as we must wait for cheques to clear.
